

Safe In Your Cradle

Trad Slovak

Eng. Words Graham Pitt

Sleep now my love, the long long day is done
Sleep now my love, the long long day is done
One bright star to watch you, One bright star to watch you
Safe in your cradle

The night is dark, the owl hoots out his lonely song
The night is dark, the owl hoots out his lonely song
Gently sleep 'till morning, Gently sleep 'till morning
Safe in your cradle

Oh who can say what fortune holds for you when you are grown
Oh who can say what fortune holds for you when you are grown
Time enough tomorrow, Time enough tomorrow
Safe in your cradle
